“I am a server, my job is to serve. I get this annoying fat old Obama bitch at my table today who drinks ice tea like it’s going outta style so I ask her do would u like a refill? She drank 5 ice teas in like 7 minutes, she then says I’m annoying for asking her if she would like a refill. I was shocked and got the manager, had to bite my lip or I’d be fired. Now what I wanted to say was probably more like go back to Africa or Newark you F’cking CUNT and Dr. Martin Luther King Jr. would be ashamed of helping free someone as nigorant as you. disgusting bitch. I never wanted to spit in a womans face so much before. There is a difference between black and the N word, and she was a Nigger.”

“Difference of races:
There is white and there is white trash.
There is black and there is Nigger.
There is Spanish and there is spic.
There is middle eastern and then there is rag head. Etc, etc.
Your god didn’t put you in those categories, you decide what quality of person you are. I have no time for low quality people at all.”

"This is the last thing I will ever say about the Zimmerman case: When I saw those signs saying end racial oppression after the verdict came in it made me sick. Let's be honest as hell for a minute people, who kills more black teenagers in this country? Their own kind. You rarely hear about it or see it on tv but it's a fact whether you like it or not. All this case showed and proved was how much ignorance and stupidity is still in this world and it's sick. This was not white vs black, Zimmerman is Spanish and 1/2 white just like Obama is 1/2 white, like I said from the beginning of all this, it's messed up the kid was shot, Zimmerman should not have gotten out of the car but Treyvon was no angel at all and should not have attacked the man. If someone was attacking me I'd defend myself too and I also would have shot him if need be and my life was at risk, str8 the f*ck up regardless what color or race the other person was. The law prevailed regardless who liked it or not, they couldn't prove it wasn't self defense, that's why he walked, case closed.

Now back to people saying they are "Racially Oppressed" I call bullshit. We as Americans have the same opportunities in this country to better ourselves and it's all about how you go after it, no one oppresses anyone accept our Government and they Oppress EVERYONE!!!!!!!!!! Where is the black folks crying that Obama is oppressing them or is it ok since he's only 1/2 black? The only people besides the government who is oppressing anyone is the black people oppressing themselves with stereotypes and ignorance and killing themselves daily over stupid shit like gangs and crime, that's the gods honest truth regardless who likes it!

I Guarantee you at least 20 black teenagers have been shot and killed since the verdict came in last night and were shot and killed by the hands of their own race, where is their justice and where is the outrage from the black communities over that? How many of them will you hear or read about? Probably none cause it's not sexy enuf for the media to twist and turn into something bigger to get ratings. So my point is we should be past the white vs black bullshit that still plagues this country til this day and we should care about life instead of color or race, that kid that was shot this morning or last night by the hands of another man regardless of race had a life that was just as important as treyvon's was as is Zimmermans.

Care about life, fuck caring about race and ignorance !!!!!
And thats my last words.

“Was going to continue bashing them scumbags that fired me and then I thought about it... They aren’t worth my time, nor were they worth the year of my life I gave them. I don’t choose to be a part of their ignorance, stupidity, laziness, hate, or racism. Yes, racism. They were the most racist piece of shit I’ve ever seen. If your not Philippine and related to the cunt boss then they won’t hire you full time and that why they have about 5 of her family members working there and they let me go so they can give her full time in my job and hours. I’m not mad, honestly I wouldn’t expect less from the 40 pound piece of shit that looks like an old cigarette or her fake ass Italian decrepit friend. See Italians should never rat on Italians, there a word for folks like that and a place as well and it’s called ‘witness protection.’ I could go on how they used racism and nepotism towards me, played their little games with their corny wack ass clock of no life washed up fat beans who will die working in the same kitchen they wasted their lives in, or how the Uncle Tom boss of the place is a clueless dumb mfer who chopped off piece of his own finger and had the nerve to tell a lady who had a heart attack in the job that she wasn’t being productive enuf, real classy move Tom you p.o.s. I could go on about how they serve the residents the lowest possible grade of food imaginable to keep food costs down so the managers can get a bonus check at the end of the year (pretty disgusting they do that veterans ), or how they administer psychotropic drugs to the residents in the form of ‘hydration drinks’ as they like to say keeps the residents calm and sedated. I could go on about the nursing car is the absolute worst I’ve ever seen in my life and I wouldn’t trust them to take care of my dead dog. I could go on about the cleaning crew is the laziest people I’ve ever seen and it’s amazing how you can see the same person sit in the same spot doing noting but playing on her cell phone for 4 hours straight while the place is disgusting. I could go on about how I believe (as well as the rest of the staff) how the main manager who fired me must be f’cking the boss who claimed I called her a cunt because he bow down to her every command like a puppet bitch. I could go on about how also isn’t the definition of a man. I could go on how I don’t appreciate the old disgusting degenerate gambler and alcoholic fake Italian showed his bosses my videos to try to get me fired, I’ll just say shame on you and you’re a disgrace to the Italian race you heretic. I could go on and on about the pieces of shit about the Uncle Tom manager called in the army general to watch my videos. TRY for the views Tommy I appreciate it, check out my new song dropping next week and play it for him too sucker. I could go on about how the NJ veterans home in Menlo Park is not a place you ever want your loved one to live or be cared for in that place, cause honestly even when I was working there I told people I know that have family members there that it’s not a place that your loved ones are getting the best care they need, trust me. I could go on and on, but I’ll stop. I called Trenton on their asses, I dealt with my real bosses, the state of NJ, and I hope they do. I hope the people who bullied me and the ones before get the karma that’s coming to them, stro up. You get back what you give, and karma will give them back what they deserve and what I deserve. So I could go on and on but I’d rather just say f’ck them and their shithole facility, they aren’t worth it and never were. I feel sorry for the residents that have to deal with idiots who couldn’t manage their way out of a paper bag, and I feel bad for my good friends that are still stuck in that place they hate as well. I don’t feel bad that themanager who let me go on some bullshit didn’t get the promotion he wanted, lol good for you Uncle Tom. I feel bad for my lady friends who have to work morning shifts with the cans. As far as I go, I feel good I’m not there even though I should be working today. I will find a better job like I always do and will make more money than the chumps that fired me. FACT. I don’t feel like even wasting another second on that scumbag place and the scumbags that run it. I love America, love our veterans, but do not love our government or the suckers who send our troops to war, and I’d rather have the freedom of speech to say that then their worthless fucking pay stub and be a silent clone like the rest. So there is my final message to that Feking place.”
